

Albury Red Light Hill Threatened Species Corridors Project

accredited training & environmental work experience

What is the National Green Jobs Corps Program?

Participants spend an average of 25 hours per week on an NGJC project doing hand-on work experience and accredited training. Each participant will commit a 26 week period.

NGJC projects will focus on the conservation, Protection and rejuvenation of the local environment or cultural heritage. The majority of projects will be team based activities developed in conjunction with local communities and groups to ensure local needs are met.

Who can participate?

National Green Jobs Corps is a free program open to: Income support recipients aged 17-24 who are:

- Receiving Youth Allowance (other), Newstart Allowance or Parenting Payment and not working more than 15 hours per week, or
- Disability Support Pension recipients willing work 15 hours per week or more, and
- 17 - 20 year olds who are not in receipt of
- Income Support Payments and not working more than 15 hours per week or in full-time education.

National Green Job Corps Projects

CVGT runs NGJC projects at selected sites throughout Victoria.

Each participant will receive the appropriate Personal Protective Equipment such as steel capped boots, trousers, shirt, hat, gloves and sunscreen.

Participants will meet at an agreed designated pick up point where they will be transported to the project site by our Team Leader in the CVGT bus.

**NEW
PROJECT**

Albury:

Red Light Hill Threatened Species
Corridors

The project includes working in conjunction with *Parklands Albury Wodonga* (a not-for-profit community managed organisation) and various local Friends Groups, participants will undertake a range of activities aimed at bush regeneration throughout the local community.

Work will take place in over 4000 hectares of bush reserve. The bulk of the project will be undertaken in Lavington/Thurgoona threatened Species corridors.

Activities will include:

- Fence repairs, install kangaroo gates and fence flood gates, gully erosion control, nest box monitoring, track construction, revegetation, woody weed control
- A major task will be to establish a walking track known for Threatened wildlife species. Tasks will include track construction, installation of track markers, bench seats and pedestrian gates
