

Timboon Partnership Project

accredited training & environmental work experience

What is the National Green Jobs Corps Program?

Participants spend an average of 25 hours per week on an NGJC project doing hand-on work experience and accredited training. Each participant will commit a 26 week period.

NGJC projects will focus on the conservation, Protection and rejuvenation of the local environment or cultural heritage. The majority of projects will be team based activities developed in conjunction with local communities and groups to ensure local needs are met.

Who can participate?

National Green Jobs Corps is a free program open to: Income support recipients aged 17-24 who are:

- Receiving Youth Allowance (other), Newstart Allowance or Parenting Payment and not working more than 15 hours per week, or
- Disability Support Pension recipients willing work 15 hours per week or more, and
- 17 - 20 year olds who are not in receipt of
- Income Support Payments and not working more than 15 hours per week or in full-time education.

National Green Job Corps Projects

CVGT runs NGJC projects at selected sites throughout Victoria.

Each participant will receive the appropriate Personal Protective Equipment such as steel capped boots, trousers, shirt, hat, gloves and sunscreen.

Participants will meet at an agreed designated pick up point where they will be transported to the project site by our Team Leader in the CVGT bus.

**NEW
PROJECT**

Timboon:
Timboon Partnership

This project will support and enhance the development of the Camperdown-Timboon Rail Trail.

Project Activities will include:

- Construction of a boardwalk .This task will involve the measuring and design of the boardwalk, ordering of the timber, organising the delivery of the timber and the construction.
- Identifying placement sites on maps and then organising signs to be erected
- Identifying weeds and removing some.
- Maintain garden areas along trail.
- Assisting in the setting up of a garden area which will be used to promote community events on the trail.
- Installing aggregate paths.
- Poisoning weeds under supervision.
- Fencing along parts of trail will be erected and in other areas of the trail will be maintained.
- Arrangements have also been made for the participants to propagate plants.
