

Drought Force

CVGT continues its successful partnership with various farmers throughout the Goulburn Valley and Benalla areas to assist in preventing farm labour from moving away from the region and to provide assistance to farming communities that are severely affected by drought.

CVGT is one of the largest providers of the Droughtforce program which aims to:

- Help reduce the impacts of drought
- Ease the burden of drought for farmers and their families
- Make sure that farms and properties are maintained and able to cope once a drought breaks
- Encourage people to remain in their local community,
- Retaining and building local skills
- Support the local economy to deal with the impact of drought
- Support local community priorities

For more information on the Droughtforce program, please contact your nearest office.
